About us

Five Star Industries is one of the leading manufacturers of heavy fabrication equipment and pressure parts in Southern India. We have constantly evolved in the past three decades since our inception and are certified with the ISO 9001:2008. It is our pride to consistently be among the largest subcontractors in both categories - heavy fabrication and pressure parts to Bharat Heavy Electricals Limited, Trichy. Our infrastructure is on par with industry standards and our strong workforce has shone through time and again. With stringent quality checks and continuous inspection, each product carries the promise of quality that Five Star Industries stands for.

Specialisation

Heavy steel fabrication

- Ceiling Girders
- TT burners
- Columns and Beams
- Heavy Fabricated Structures
- Mining Equipments and Structures.
- Windmill Towers
- Air Preheaters

Pressure parts

- WW Membrane Panels
- Headers
- Economizer Coils
- SH & RH coil assemblies
- Stud Welded Bed Evap Tubes

Major Highlights:

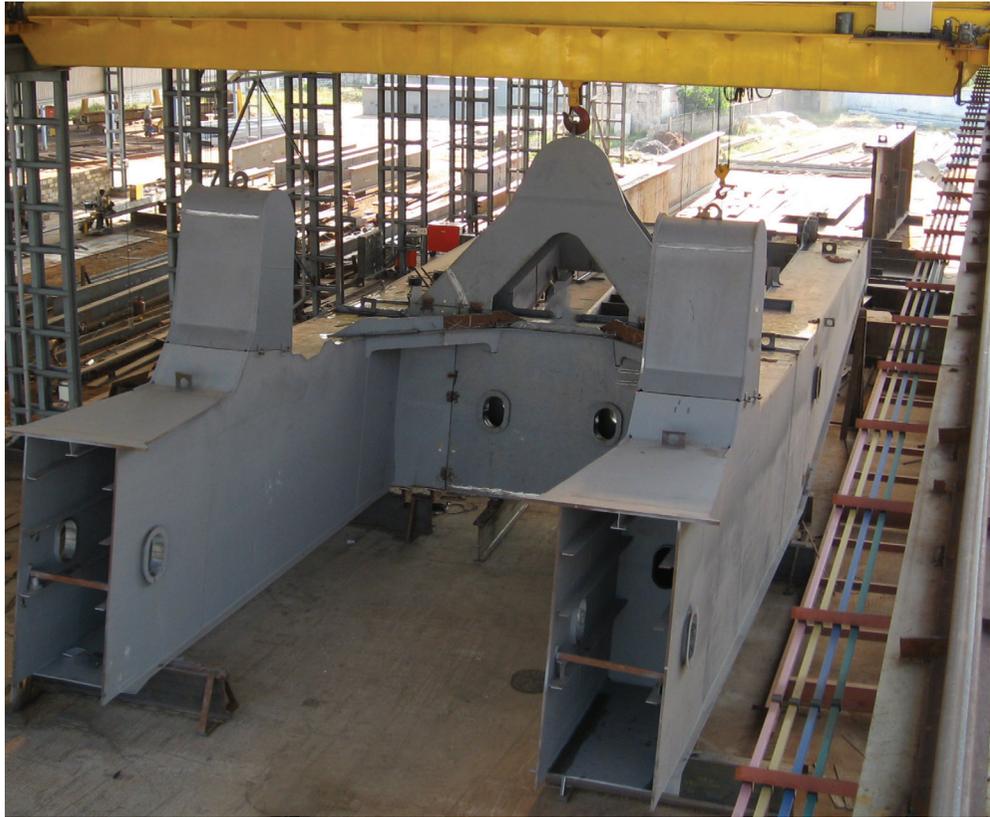

India's first 600MW ceiling girder assy for North Chennai TPS.

India's first 660MW ceiling girder assy for NTPC BARH thermal power project .

India's first 800MW ceiling girder assy for Krishnapattinam thermal power project.

Largest supplier for three consecutive years to OS, BHEL, Trichy.

Best Subcontractor Award- Heavy Fabrication by BHEL, Trichy.

Heavy Fabrication

Quality Assurance

At Five Star Industries, we do what it takes to ensure that every product stands the test of time. All projects are executed under the most stringent quality control standards, under third party inspection by BHEL, NTPC, TCE, IBR, IIQA, NPC, NLC, IRIS, QUEST, and Lloyds. The 10,000+ M.Tons of Heavy Fabrication production we have done in the last two years is testimony to our high standards. A dedicated in-house Quality Control Department along with a skilled workforce of more than 160 carry the promise of quality that Five Star Industries stands for.

Infrastructure

Manufacturing capacity:
Fabrication - 700 M.Tons/month
Pressure Parts - 300 M.Tons/month

Max. Size handled:
Individual Piece - 70 M.T.
600MW Ceiling Girder Assy - 980 M.Ton

Total Land Area - 5.8 acres,
Covered Shed area: 7100 Sq.mts.
Sanctioned EB Power: 580 H.P
Standby Power Generator: 305 H.P

Milestones

Ceiling girder assemblies manufactured for 29 sub-critical and 6 super-critical power projects.

TT burners manufactured for 28 sub-critical and 2 super-critical power projects.

26000 M.Tons dispatched in the past five years to various power projects.

Cooler assembly manufactured and exported to Japan.

Housing assembly exported to Saudia Arabia.
